Chair Philip Isenberg
CA

Dear Chair Isenberg,

The book, Cadillac Desert said it all...many years ago. The water in our state and Delta is vastly over appropriated and under monitored. This is an important moment for the Sacramento-San Joaquin Bay-Delta ecosystem and the Delta Stewardship Council. Water management needs to go in a direction that will not allow corrupt monetary gain and political pressure to ruin our estuary so that a few may profit at state, community, and WILDLIFE expense.

Southern California and Central Valley macro-agriculture was built on this 'drain' game. Is it going to go on forever...or only until there is no more water?

Cowboy up council and use your brains. Thank you.

Sincerely,

Ms. Gail MacMillan
